Best game of the century. Li'l debbies should add more maps and different modes. Thank you, and god speed li'l debs.. This game is insanely fun, bought it to play locally with my friends and had an absolute blast. Played it for almost 5 hours straight, not even realising how long it has been. This game is already much better than gang beasts. Online seems a bit empty, though, but I'm sure more players will come soon. Definitely recommend it if you have friends to play with.. OMG so fun we normally play strategy games but when we are all to drunk to do that this game is a blast kinda wierd to map to a keyboard but once you get used to controles so much fun!!!. How to play havocado 2 players in 1 keyboard. This is actual trash. don't waste even one penny on this.. I highly recommend to any to get this game, especially if you have a group of friends
